Principal's Message

Life passes swiftly. This is my fourth year as principal of Nuernberg American High School, yet it seems like just yesterday that I first came on these school grounds. Each year has its significant events and memories, and each class that graduates leaves its mark on this school. We have passed through a year that will be marked in history by the tragic death of an American President and by a citizenry re-dedicated with new confidence in the United States of America, which John F. Kennedy loved so much.

I offer my congratulations to the Class of 1964. It is my sincere hope that your high school years have been spent in profitable ways and that you take with you a firm foundation. Your principal asks that you set your sights on high objectives. Be determined to get the most out of life by giving to it your best. Be a friend to those you meet in the daily tasks of living and you will never want for friends. Take advantage of every opportunity, for the foundation for successful living is found in accepted opportunities. The future will be only as great as the wealth of knowledge that mankind accepts.

To all of you I wish the very best. I hope that we shall meet again and talk again about Nuernberg American High School. God bless you all.

"Education," wrote Lord Brougham, "makes a people easy to lead, but difficult to drive; easy to govern, but impossible to enslave." These lines immortalize education--teachers. The role of the educator in any society is possibly the most noble profession, one of the most rewarding and most difficult.

We enter high school with our interests uncertain, our talents undeveloped, and our character still malleable. A full and rich curriculum, enthusiastic teachers, and some expert guidance will mold us into educated-but individualistic-people.

Eagle's Nest 1964

As every year, the yearbook undergoes many unique problems. We have solved our problems through the able assistance of many. Our Annual would not have been possible without the help of Mr. Morgan, our sponsor.

We would also like to thank Mr. Sharpe, Mark Rudney, and Doug Veith for their excellent photographic work.
